

Sketch 1: Displays the home screen of our app, which provides students with the total Points they have earned.

Sketch 2: Shows a different screen that shows upcoming events that students can attend, and how many points they will earn if they stay the entire event.

Sketch 3: Shows a map with blips of where each event is hosted, as well as the current location of the user so the app knows if the user is at an event or not. There will also be a barcode to scan in on at the event.
